Subject: Keep the Third District as it is!

I am a 15 year resident of the Santa Monica Mountains unincorporated community of Topanga, where Zev Yaroslavsky is my County Supervisor and defacto Mayor. His district is comprised of three geographically connected communities- the Las Virgenes Region where I work, The San Fernando Valley where I shop and the Greater Westside where I play. There are a number of reasons to leave the District boundaries as is, but specifically these mountains and all their communities to the north and south adjacent are bound together with regards to public safety/emergency preparedness practices, common parks and public spaces, businesses, transportation corridors, environmental issues, and governmental entities.
Please don't fix what isn't broken!
Thank you for you time and consideration.
Sincerely,
C. Scott
