Re: County Supervisor District 3

We are a homeowners group in Upper Topanga that was formed in 1988. We would like to have the district boundary remain as it was drawn in 1991. The communities in and adjacent to the Santa Mountains and along the seashore especially share common concerns:

- 1) We all want to protect our watersheds.
- 2) Our communities do much to prepare for wildfires.
- 3) Acquiring and maintaining open space is a top priority.
- 4) Mudslides can close our roads and threaten our homes.
- 5) We want to prevent pollution of our beaches.

These are some of the major reasons our group requests that you keep our current district intact.

Sincerely,
Herbert Petermann
