Curt Pedersen
Chair, Boundary Review Committee
500 West Temple Street, Room 383
Los Angeles, Ca 90012

Dear Mr. Pedersen:

I applaud and am in favor of continuing the redistricting process. I'm glad the constitution still works.

Special interest group and career politicians may wish to short circuit this process to serve their own agenda by inundating you with emails and phone calls to abandon this required process.

I hope you will disregard these senseless requests to circumvent the law, and will obey the constitution you've sworn to uphold.

Some may even use government resources in this folly, as apparently was the email I just received from county supervisor Don Knabe (don@lacbos.org) with an official county of Los Angeles seal as part of the email urging me to oppose redistricting.

I found it to be HIGHLY offensive and peculiarly indefensible that a county official would urge me to join him in abandoning allegiance to upholding any and all laws, including those in the constitution.

Also I question the legality of his use of time and resources, as well as the wisdom of his use of the power of his position.

I find it odd that I would receive this email during working hours, when he should be conducting county business, instead of trolling for supporters in his ill thought out quest conducted via email spam lists.

Since I have never emailed Mr. Knabe, I know of no legitimate way he could have obtained my email address and I have added his email address to my BLOCKED list.

Thank you for your time.

Allen E. Elwood
