Subject: County Redistricting Plans

Dear Boundary Review Committee Members:

As a resident of the unincorporated area of Hacienda Heights I am concerned with the redistricting plans. We have lived in our home for 50 years. Our present district has served us well during those years we have been in the Fourth District. Recently the Board of Supervisors approved our updated Community Plan. We were living here when the 1978 plan was approved. Some of that plan was implemented while other parts of it were overlooked. We are hoping the new updated plan will correct some of the oversights on the old plan. It is important for us to maintain the leadership who guided us through the several years of planning for the update. Please let us remain in the Fourth District with those in charge who are familiar with our area.

Also this is a crucial time for us as we near the closing of the landfill next to our community. We moved here before the landfill started. It has been a long continuous battle and we would like to see the county help us see it closed. Our present Supervisor Don Knabe has been through this with us. He understands the issues. Please let him remain our Supervisor at least until the landfill is closed and our new Community Center is complete.

Thank you for you consideration.

Sincerely,

Barbara Clonts
