---

Dear Boundary Review Committee Members

This in regard to the County Redistricting Plans -- I live In Hacienda Heights since 1963 - and the last 20 years Hacienda Heights and most of Rowland Heights were part of the 4th Supervisorial District.- The present boundary of the 4th District encompasses communities with similar interests, and has very well worked for many years.

As far as I am concerned - and so are many of my acquaintances- we are very satisfied with the present status and the representation of Mr. Don Knabe's office and his staff--- and do not wish to have it altered.

It would be beneficial for our communities to stay together in the Fourth District in regard to various issues:  
environmental, transportation plans. public safety, emergency preparedness, public spaces, and also relations with other government groups.

There are a number of issues in our unincorporated area of Hacienda Heights - ie. our Community Center project and Orange Grove property Park plan, which our current supervisor and his staff are familiar with and it would in my opinion disrupt the execution and finalization of these plans should our community be moved to a different district.

I urge you to leave Hac.Heights/Rowland Heights together in the 4th District

Thank you for your consideration

Sincerely,

Hildegard A. Weck
