Subject: 5th district redraw

As a Councilperson of more than fourteen years here in Altadena both I and my wife are registering our absolute opposition to dividing Altadena in the proposed redistricting plans.

Our Community is represented in Town Council form and this splitting would negate the contributions of the Altadena Town Council.

Additionally, our objections apply to removal from the 5th to the 1st district either in part or in whole. This is clearly a Gerrymander and will not survive a court challenge. As a Forensic Expert in real estate and property matters I will most certainly be able to illustrate the fallacies of any proposal relating to separating Altadena from the 5th District. The argument relating to federally mandated racial balance simply does not hold water in this matter.
