**Subject:** Redistricting of Altadena Area

To whom it may concern

Please take into consideration my opposition to this proposed redistricting of our Altadena area and the subsequent change in County Supervisors this would more than likely cause.

My wife and I have lived in the Altadena area since 1997 and have been extremely happy with the way Supervisor Antonovich has managed the district. During this time there were a number of contentious issues that arose. These would have affected the quality of life for residents of this area to varying degrees. I am please to say that despite the negative press of late about the corrupt nature of local politics in some parts of Southern California, Supervisor Antonovich's office and the local Altadena Town Council handled these matters in such a manner as to truly represent the interests of the community they were elected to represent.

I see no logical reason, aside from possible political motivation why our Altadena district should not be allowed to continue it's present harmonious course with it's present oversight. Many of our neighbors feel much the same way as my wife and I do, and feel that our voices and opinions should be heard in this matter.

Please understand this community is not given to seeking to be contentious about every proposal that arises, but in this matter, I for one as a resident and homeowner in this community will not take lightly any decision that goes against the interests and wishes of the community at large. I have spoken to numerous people in this area and the consensus is that we do not wish to be used as pawns in political games and will take serious issue with those who would choose to do so.

Michael Reilly
