It is in the best interest of the City of Torrance, and the entire South Bay area, if you keep the City of Torrance in one district. We do not want to be divided, as some proposals show. We prefer the original draft of district boundaries. We would also prefer to stay with the rest of the beach cities and the Palos Verdes Peninsula. This area has common interests, such as roads, beaches, and industry, that would be much better served by remaining in one district.
