Re: Redistricting – Plan A2

Dear Mr. Pedersen:

The City of Avalon is part of the Fourth Supervisorial District and we are very much in favor of Plan A2. This plan seems to be the least upsetting plan and respects the wishes of the majority of the people.

The City of Avalon and its residents face many unique challenges due to our location. Over the years that the Supervisor has been with us, he has come to know our community, he visits us on a regular basis, and has become a vital part of it. Supervisor Knabe and his staff understand our needs and represent our interests. The Supervisor is always willing to listen to our challenges, offer suggestions, help and moral support. Supervisor Knabe continuously represents and fights for us, and is forever showing us that he is committed to us.

We ask that you not split up communities that have shared the same services and representation for over 20 years and allow us to maintain the current Fourth District boundary lines.

Thank you for your consideration on this matter.

Sincerely,

Robert Kennedy, Mayor
City of Avalon
