Please reconsider the placement of El Segundo. We are a South Bay beach city and should remain in that district. We stretch about 2 miles from the ocean and less than that from LAX. We are an "isolated" residential area at the northern end of the South Bay. We are connected to those communities culturally, socially, economically, and athleticy. This is great similarity in our political issues also. I feel that my political voice will be diluted &/or erased with this new boundary. Please consider keeping El Segundo in the South Bay political community.

Pat Husain [REDACTED]

P.S. Where and at what time is the August 7th meeting? I could not find the information on the web site. Thank you for your prompt response.
