RE: Los Angeles County Redistricting 2011

Dear Members of the Los Angeles County Board of Supervisors:

I wish to voice my strong support for the T1 Plan, also known as the Voting Rights Act Compliance Map, and the S2 Plan, referred to as the Community Empowerment Map. Both plans would fulfill not just the letter but the spirit of the Voting Rights Act by requiring that all citizens be provided an equal voice and an equal vote—especially for those communities that have experienced historical discrimination and disenfranchisement.

As the 2010 U.S. Census shows, the Latino population has grown by 1.3 million since the current district lines were drawn in 1991. Today, two Latino-majority supervisorial districts are now not only possible but are required by the Voting Rights Act.

The A3 map, favored by the majority of the Board, maintains the status quo which fragments a politically cohesive and compact community across four districts--diluting the Latino voice and denying the Latino community an effective opportunity to elect a candidate of choice.

As was the case 20 years ago, this Board is faced with a choice, to protect the status quo of incumbency at all costs including spending millions of taxpayer dollars in a fruitless lawsuit, or to embrace change and the fundamental principle of representative government which is the foundation of our democracy.

I urge this Board to do the right thing by following the numbers and following the law. Support two Latino opportunity districts by voting for T1 or S2. Make history, don't repeat it.

Sincerely,

A handwritten signature in black ink, appearing to read "George Martinez Velazquez". The signature is written in a cursive, flowing style with some loops and flourishes.

I wish to voice my strong support for the T1 Plan, also known as the Voting Rights Act Compliance Map, and the S2 Plan, referred to as the Community Empowerment Map. Both plans would fulfill not just the letter but the spirit of the Voting Rights Act by requiring that all citizens be provided an equal voice and an equal vote—especially for those communities that have experienced historical discrimination and disenfranchisement.

As the 2010 U.S. Census shows, the Latino population has grown by 1.3 million since the current district lines were drawn in 1991. Today, two Latino-majority supervisorial districts are now not only possible but are required by the Voting Rights Act.

The A3 map, favored by the majority of the Board, maintains the status quo which fragments a politically cohesive and compact community across four districts--diluting the Latino voice and denying the Latino community an effective opportunity to elect a candidate of choice.

As was the case 20 years ago, this Board is faced with a choice, to protect the status quo of incumbency at all costs including spending millions of taxpayer dollars in a fruitless lawsuit, or to embrace change and the fundamental principle of representative government which is the foundation of our democracy.

I urge this Board to do the right thing by following the numbers and following the law. Support two Latino opportunity districts by voting for T1 or S2. Make history, don't repeat it.

Sincerely,

*Norma Soria*

RE: Los Angeles County Redistricting 2011

Dear Members of the Los Angeles County Board of Supervisors:

I wish to voice my strong support for the T1 Plan, also known as the Voting Rights Act Compliance Map, and the S2 Plan, referred to as the Community Empowerment Map. Both plans would fulfill not just the letter but the spirit of the Voting Rights Act by requiring that all citizens be provided an equal voice and an equal vote—especially for those communities that have experienced historical discrimination and disenfranchisement.

As the 2010 U.S. Census shows, the Latino population has grown by 1.3 million since the current district lines were drawn in 1991. Today, two Latino-majority supervisorial districts are now not only possible but are required by the Voting Rights Act.

The A3 map, favored by the majority of the Board, maintains the status quo which fragments a politically cohesive and compact community across four districts--diluting the Latino voice and denying the Latino community an effective opportunity to elect a candidate of choice.

As was the case 20 years ago, this Board is faced with a choice, to protect the status quo of incumbency at all costs including spending millions of taxpayer dollars in a fruitless lawsuit, or to embrace change and the fundamental principle of representative government which is the foundation of our democracy.

I urge this Board to do the right thing by following the numbers and following the law. Support two Latino opportunity districts by voting for T1 or S2. Make history, don't repeat it.

Sincerely,

Los Angeles County Executive Office  
Room 383  
500 West Temple Street

As the 2010 U.S. Census shows, the Latino population has grown by 1.3 million since the current district lines were drawn in 1991. Today, two Latino-majority supervisorial districts are now not only possible but are required by the Voting Rights Act.

The A3 map, favored by the majority of the Board, maintains the status quo which fragments a politically cohesive and compact community across four districts—diluting the Latino voice and denying the Latino community an effective opportunity to elect a candidate of choice.

As was the case 20 years ago, this Board is faced with a choice, to protect the status quo of incumbency at all costs including spending millions of taxpayer dollars in a fruitless lawsuit, or to embrace change and the fundamental principle of representative government which is the foundation of our democracy.

I urge this Board to do the right thing by following the numbers and following the law. Support two Latino opportunity districts by voting for T1 or S2. Make history, don't repeat it.

Sincerely,

A handwritten signature in black ink that reads "Imara Chae". The signature is written in a cursive, flowing style with a large loop at the end of the last name.

RE: Los Angeles County Redistricting 2011

Dear Members of the Los Angeles County Board of Supervisors:

I wish to voice my strong support for the T1 Plan, also known as the Voting Rights Act Compliance Map, and the S2 Plan, referred to as the Community Empowerment Map. Both plans would fulfill not just the letter but the spirit of the Voting Rights Act by requiring that all citizens be provided an equal voice and an equal vote—especially for those communities that have experienced historical discrimination and disenfranchisement.

As the 2010 U.S. Census shows, the Latino population has grown by 1.3 million since the current district lines were drawn in 1991. Today, two Latino-majority supervisorial districts are now not only possible but are required by the Voting Rights Act.

The A3 map, favored by the majority of the Board, maintains the status quo which fragments a politically cohesive and compact community across four districts--diluting the Latino voice and denying the Latino community an effective opportunity to elect a candidate of choice.

As was the case 20 years ago, this Board is faced with a choice, to protect the status quo of incumbency at all costs including spending millions of taxpayer dollars in a fruitless lawsuit, or to embrace change and the fundamental principle of representative government which is the foundation of our democracy.

I urge this Board to do the right thing by following the numbers and following the law. Support two Latino opportunity districts by voting for T1 or S2. Make history, don't repeat it.
