

How To Address Delayed Census Data Problem?

Ideas already “in the hopper:”

- *Urgency Bill Needed (for events this year)*
 - shorten one or both hearing periods [from “no fewer than 30 days”]
 - change “map adoption deadline” [in Elections Code § 21501(a)(2)-(3)]
 -
- *Non-Urgency Bill O.K. (for events beginning next year)*
 - push back candidate filing deadline(s)
 - move 2022 primary election day to a later date
 - cancel primary and use Ranked-Choice Voting in general election
 -
- *Other Legislative Action*
 - Legislative Constitutional Amendment for poss. recall election ballot (for Calif. CRC +?)
 -
- *Legislative action not needed(?)*
 - frontload allocation into pop. database of (4/1/2020) incarcerated people
 - make released Census data useable in mapping software more quickly
 -
