| 4 | Anonymous | Other | <p>I have lived in LA County for 54 years, down through the decades the districts have been realigned ; but, the number of LA County Supervisors has never changed. Over the last 5 decaades, the population of LA County has increased. Even though, I feel the supervisors have done a good jobs; I think that perhaps we would be better for both the supervisors and the public if the number of LA County Supervisors was increased. As more bigger buildings are developed, the population will only incease. I think it is long over due that we increase the number of supervisors to be able to even better represent the growing population of Los Angeles County.</p> | 7/10/21 | N/A |
