4	Christian Trigueros	Other	<p>as a neighborhood business developer for faith based organizations and youth Sports organizations representing the Mtn.View school district headstart as the superintendent parent advisory committee and Board member for the El Monte South El Monte Jets football and cheer SGV Football conference and Coaching at El Monte national and eastern little league district 18 Little league and Chairmen of the Culture of Life Committee for the knights of columbus council 3159 El Monte. Every organization and Residents have been neglected and divided by existing zoning districts and developers building over historical landmarks and evicting many student families from there homes with no support of any social services due to funding for the specific zoning area and tax collected . the homes and apartments in one part of the city are un habitable causing disease and illnesses and the rents are extremely high for low income families making their lives dysfunctional while on the other side of the same city they are building new homes and villages for low income housing in a high income zone and offering them to people outside the city mostly foreigners . the majority of the young adults and their families are living in hotels spending almost 2000 a month because there is not enough equal housing opportunity outreach programs in place due to discrimination and legal statuses. all the properties that went for sale are bought by Chinese foreigners and they Raise the Value of low income housing areas by building big homes and make large property with orchards and American unique Architecture into multiple housing with all the same look with out energy effiecient and Eco friendly recycled materials to conerve energy and preserve our environment resources by using solar energy and recycled material for building a Goal that</p>	8/7/21	N/A

			<p>was set 20 years ago but in the last 10 years developers and cities ignored to Enforce and pass new building codes . our Youth sports programs have depopulated and even closed due to districts they live in there is not enough kids and due the closure of schools in our districts ot also creates disparities to provide them with transportation to a new location farther than the ones from the El Monte School district that are Brand New and Bigger but have not enough students and in a higher level income zone while the majority of low income students have to go farther in a small underdeveloped old over populated schools and classrooms. this is signs of segregation and discrimination of foriegn investors and developers . my whole Zone which is San Gabriel Valley from east La to pomona has 66 parishes each with there jurisdiction as historical Landmarks the first being in 1771 the Mission San Gabriel. and all Native Mexican American catholics who have built these parishes for all Nationalities philipino vietnamese chinese Syrian Spanish Korean and many others all in one community because our 500 year heritage of native americans and European common belief and recognition of The Creator and begining of Time before Christ sharing the Spirit and fighting against the same evil enemy that today still exist my community is celebrating the 89th annual Guadalupanos Viva Cristo Rey Procession in East LA this December this community of militant spirit defeated the Mexican Government and its Army because they where being killed for their belief and worship after the war agreements the government broke the agreement and went after all the Christeros making them martyrs those who escaped migrated here in the San Gabriel Valley and helped build and protect these lands and country. you can see our events and heritage at followourlady.org. and can view all my projects and services I provide In My Community. as A invited exhibitor at the San Gabriel Regional Congress Of Religious Education for the Archdiocese of LA it is in the best interest of every branch of government in this</p>

			<p>zone to provide redistricting to benefit all people and organizations not real estate developers and big business but the reason why we map out these districts and zones. I am Ready to assist and advise on how we can reach these goals with the network and common faith to live out our lives fairly with no discrimination or racism . I know this world has bad history with careless leaders that believe money and materials are more important than peoples lives and their habitat we are in need of international expansion by bring Tourism and entertainment Theme parks and much more but the only way to see the same vision and achieve all our Goals is by having compassion for everyones life and even though my people are on the defense and ready for any offensive action to destroy or oppress our families economy and our homes. we can share a common heart of understanding and recognition of all possible resolutions and not avoid or ignore peoples rights to belong And work together with others. and discipline and train those who dont know or care to recognize the need of students teachers laborers entrepreneurs families Barrios athletes and artists.</p>		
4	George M Saikali	Oppose	<p>I Would like the Board of Supervisors to consider keeping the three valley Cities of Burbank, Pasadena and Glendale under one supervisor due to the strong Economic collaborations which ties us together such as the Airport and the joint PD task force. Glendale, Pasadena and Burbank share a strong history as well.</p> <p>Thanks, George</p>	8/4/21	N/A

4	Armando Ng	Other	<p>I am writing to ask the Commissioner to have at least one District with sufficient concentration of Asian origin so the Asian communities can vote for a supervisor of choice that can represent them. Over 15% of LA County are of Asian origin. That's at least 1.5 million residents out of approximately 10 million residents in LA County and there is not one Supervisor of Asian origin that represent the Asians communities. Current districting ensures prevents that from happening since the Asian communities/concentrations or the 1.5 million Asians have been divided into one of the current five Districts, ranging from about 7% to 18% Asian in each district. This division ensures that the Asian communities will not have sufficient concentration in any of the current five Districts to elect an Asian representation as evidenced by prior Board of Supervisor elections with candidates of Asian origin. Furthermore, the current Board of Supervisor does not and have never in its history fairly reflected LA County's diverse population due to the lack any Asian representation. There is a sufficient number of cities and communities with majority Asian population that can be group with other surrounding cities to still have a District with the size that is comparable to the other Districts and with a large concentration of Asian origin to elect a supervisor of their choice.</p>	8/11/21	N/A
4	Cynthia Gabaldon	Other	<p>I have lived in the Foothill Communities my entire life. 50+ years. We are a special area. The San Gabriel Valley overall is a special area. Great mix of communities and diversity. We are currently pulled together into one district and we are hoping that we remain in the same district. With that said, our voices are not heard very often when it comes to countywide decisions. We are hopeful that our voices are heard more seriously.</p>	8/11/21	N/A

4	Julie Rico	Other	<p>“Thank you Commissioners for your service. First, I want to say that the First District should be kept together as one. Because we have been in the same district as El Monte, South El Monte, Baldwin Park, La Puente and Puente Valley, and Pico Rivera we have been able to receive County services such as vaccination sites in our region, which is why we must remain together as one. The relationships we have with the County have been tremendously helpful and to split us up is to forgo those relationships and services. We are a working class community that shares many cultural and economic interests with our neighboring cities. Additionally, we have been working on the issue of homelessness together as a coalition, building regional shelters and housing for all to access.”</p>	8/11/21	N/A
4	Lester Kau	Other	<p>I ask that you put Azusa in the same district as Supervisor Barger. I feel that she would do a better job at representing us. Also, The foothill cities have more in common with each other. That Azusa is currently separated from other cities makes it more difficult for us to deal with issues that we have in common. Thank you for considering my request.</p>	8/11/21	N/A
