Nora Diaz	93550	Antelope Valley	<p>Hello, my name is Nora Diaz and I am a member of CHIRLA. I live in the Antelope Valley community since 2006. Today I am going to speak as an immigrant with 3 immigrant children with DACA.</p> <p>There are 2 bookstores, a large one in Lancaster on Lancaster Blvd and a small one in Palmdale by city hall. Childcare services are through public schools or private daycare. The parks in my community are well cared for but have not been remodeled in many years. Due to lack of resources, McAdams parks on 30th and R and the Pelona running park benefit from having more activities for youth and families. For health services for the immigrant</p>

For services like mammograms, they refer us to a private clinic called Lancaster Imaging Center only if you qualify with checks of less than \$ 800 a fortnight. For any emergency service, I would need to go all the way to Sylmar to Olive View.</p> <p>During the time that I have lived in my community, I have had to learn to survive using the public transportation service called AVT. But using the bus means planning and walking a lot to get to the bus stop. The most used routes are Route 1 that takes you from the transportation hub in Lancaster to 60th St East in Palmdale. But if you want to go from Littlerock, which is a more rural area, to Lancaster to go to the community college, it is very difficult. You have to take 2 or more buses. It is even more</p>

The cities that I DO NOT want in my Antelope Valley community are: Simi Valley and San Fernando Valley like Pacoima and Porter Ranch and Sylmar because they have more community resources and access to medical health than my community.</p> <p>It is important that the commission keeps my Antelope Valley community whole and that we have a representative who listens to the immigrant community. Having the entire Antelope Valle together will help advocate for Covid relief for the immigrant community in great need.</p>

On Whittier Blvd., many members of the community make a living working in food trucks selling tacos, beer, hot dogs, and pupusas which worries me because of the quality and the freshness and nutritional value of the food concerns me, however, we must make a living somehow in order to take money home to pay our rent and bills. On Whittier Blvd., there are many smoke shops opening and they are accessible to many young people who pass by these on their way to and from schools including Ford Blvd Elementary, Humphreys, Griffith Jr High and Garfield High School. These are very good public schools but walking down Whittier Blvd is impossible with the shops that display their products on the sidewalks, and the high number of indigent individuals everywhere. There are many services available to my community; some of those services are available at East LA College, the Edward R. Roybal Clinic (also known as clinica de colores) and they help the community apply for medical health and provide emergency medical care to the immigrant community. The clinic also refers clients to other non-profit organizations that help pay rent and overdue bills, especially now with COVID. Por falta de vivienda y porque el costo de las viviendas es muy alto hay muchas personas que viven en RVs en nuestra comunidad o que no tienen hogar. Cuando se camina en las calles de East LA hay muchas RVs parqueadas en la calle.
