5.a.	Aaron Robertson	Favor	<p>As you finalize your map and focus in on making precise cuts, I want to lift up 3 small but important items for Map F-3.</p> <ul style="list-style-type: none"> <li>• Thai Town – is missing 3 block stretch based on how our members define it along Western Ave. between Hollywood and Sunset</li> <li>• Koreatown – missing small rectangle in its SE corner that’s bound by Vermont on West, Hoover on East, San Marino on North, and Washington on South.</li> <li>• As you look at potentially bringing Downtown into SD2 - Skid Row is a priority for our members in SD2, Chinatown and Little Tokyo in SD1.</li> </ul> <p>These are reflected in Map 101.</p>	12/11/2021	n/a
5.a.	Ami Brasili	Oppose	<p>My so. Has so many activities in Torrance and PV. We are rarely downtown and it makes no sense to be related to it.</p>	12/11/2021	n/a
5.a.	Ann Wolfson	Other	<p>I would only approve Map F3 with the following changes.</p> <p>Move the beach cities back into District 4 and exchange for more traditional areas closer to downtown for District 2. The beach cities have much more in common with Torrance, PV Peninsula and Long Beach than parts of downtown.</p> <p>Likewise, the communities of District 2 have much more in common with the areas closer to downtown than the beach cities. This is rather obvious and a simple change that will greatly enhance the goal of matching common communities of interest and greatly improve this map, as well as minimize changes from the current District lines.</p>	12/10/2021	n/a

			Unnecessary changes for both District 2 and District 4 can be eliminated with these simple tweaks.

5.a.	Cindy Li	Favor	I hope Hacienda Heights & Rowland Heights can continue to remain in 4th District with supervisor Janice Hahn. Thanks.	12/11/2021	n/a
5.a.	Dana Miller	Oppose	-	12/11/2021	n/a
5.a.	Diane Wallace	Oppose	I don't see any relevance for the beach cities to be in a supervisorial district with downtown LA. The Beach Cities, PV peninsula and the San Pedro area should be together so that we can continue to be a strong LA voice in addressing climate change and the health of the Pacific Ocean and Santa Monica Bay.	12/11/2021	n/a
5.a.	Emily Chen	Favor	I would really want Hacienda Heights and Rowland Heights to stay in 4th district, under Supervisor Janice Hahn. Thank you very much for your time.	12/10/2021	n/a

5.a.	Eva Che	Oppose	We hope Hacienda Heights and Rowland Heights can continue to remain in District 4th, with Supervisor Janice Hahn. Thank you very much for your time.	12/10/2021	n/a
5.a.	Faraz Aqil	Other	<p>Before approval of a Final Map, please consider shrinking the population deviation that Map F-3 currently has. Currently one of the districts has a +117,823 (5.86%) population deviation. Although I strongly support Map F-3, small tweaks can and should be done that don't have to drastically change Map F-3. I even submitted a Modified F-3 map named, "Reaching Near 0 Percent Population Deviation &amp; Small Tweaks" to show which tweaks I recommend should be done.</p> <p>Thank you.</p>	12/10/2021	n/a
5.a.	Frank Cardenas	Favor	<p>My name is Frank Cardenas. I was the Executive Director of the Los Angeles City Redistricting Commission in 2002 and again this year. Map F-3 is strong. Map 101, based on F-3, represents an amazing accomplishment. When you overlay Map F-3 with Map 101 the following amazing features emerge:</p> <p>A District 4 that respects the Gateway Cities, keeps Long Beach and the Palos Verdes Peninsula whole and together, while including La Habra Heights,</p> <p>A District 1 that honors API communities by keeping the API communities of the San Gabriel Valley with Little Tokyo, Chinatown and Thai Town,</p> <p>A District 2 that retains the historic core of the County's Black community while adding to it new vibrant economic engines like LAX and Staples Center,</p> <p>A District 3 that at long last takes over 80% of the San Fernando Valley into its warm embrace,</p> <p>A District 5, where I live, that is transformed from a sleepy foothills, mountain and desert district into an exciting new Entertainment District with Universal City, and Hollywood, while keeping the tri-cities together,</p> <p>ALL while creating two districts with Latino CVAP above 50% and a third coalition district with Black CVAP above 30%</p> <p>Map 101, based on your Map F-3, is a Voting Rights Act compliant, COI sensitive,</p>	12/11/2021	n/a

			exciting vision for the County's next decade. Please don't snatch defeat from the jaws of an amazing victory. F-3 is strong. 101 is breath-taking. Thank you.

5.a.	Gaylord P Suddeth	Oppose	I would only approve map f3 with the following modifications: Move the Beach Cities back into District 4, and exchange four, and exchange for more traditional areas closer to downtown for District 2. The Beach Cities have far mor in common with Torrance, PV Peninsula, and Long Beach than with downtown. Likewise, the the communities of District 2 have much more in common with the areas closer to downtown than with the Beach Cities. This simple changewill better achieve the goal of matching common communities of interest.	12/11/2021	n/a

5.a.	John Memdoza	Oppose	Oppose map unless Supervisor District 5 have N.Pomona and FAIRPLEX north of 10 freeway crafted into District. N.Pomona share community Interest with neighbors cities San Dimas at Bonnie Park. housing projects with Claremont and FAIRPLEX a Economic Engine with La Vern.	12/11/2021	n/a
5.a.	John Mendoza	Other	Comment made today Friday the December 10 about community coming together in Pomona for COVID-19 vaccination not true the Los Angeles County operated the facility on north side of FAIRPLEX near La Vern. Community do come together as indicated in File regarding FAIRPLEX having to make concessions for community concerns of events having a negative impact on residents in N. Pomona north of 10 freeway.The events affects near by cities of San Dimas; La Vern Claremont. N.Pomona and cities above share a community of interest with FAIRPLEX. South Pomona below do not and that's why ex CEO Santana was pressurd to develop the Mitigation Zone and fund to deal with events over impacting residents in close proximity to FAIRPLEX. Unfortunately the residents in Supervisor District 5 we're excludes from revenue. Having a Supervisor from District 5 could facilitate inclusion and accountability which often creates opposite political views in Pomona City Hall loyal to FAIRPLEX. Supervisors District 5 is a opportunity district in which a overwhelming cities are not impacted	12/11/2021	<a href="#">View attachment</a>

			<p>by poverty along the north SGV. Ganeha Hills and Mountain Meadow's gated community is higher incomelike San Dimas Clamont and La Vern.</p> <p>Why incisist to be in a Supervisor District over impacted already with the cycle of poverty when the city has the opportunity to expand opportunity as a pioneer city. The changing demographic population in Supervisor District 5 map being considered preserves the status quo against the rising Hispanics population. The population in Lancaster Palmdale exceeds the population of whites but map Crafted that includes upper income SGV north off sets the negative decline of whites.</p>		
5.a.	John Mendoza	Favor	<p>Comments today by a community member stated that Pomona Community came together to establish a COVID-19 center at Pomona FAIRPLEX. Not true the County of Los Angeles operated the COVID-19 drive through near Arrow Highway on City of La Vern Side.</p> <p>Redistricting should be not based on lies or folks given a script for testimony as what happened during Pomona Unified School District to establish trustee area voting. North Pomona above or north of 10 freeway is surrounded by San Dimas west side and North La Vern and East Claremont. N. Pomona share a community of interest with all three cities.</p> <p>Pomona included on North is but 1/4 of Pomona. Six Council districts but one north above 10 freeway. Community do come together but often on opposite sides. A illegal car sales operating took place on FAIRPLEX recently summer 2021 and concerned community went door to door collecting letters of opposition. Loyal FAIRPLEX community members opposed the activist. Traffic noise and traffic issues affect all three cities and the economic engine FAIRPLEX and City of Pomona have yet to make public revenue generated as all other 3 cities were impacted. E:Maills to Supervisor 1st district from concerned community about diesel truck pollution were not answered. Recently Claremont and N Pomona Ventured a project for affordable housing. A water project at FAIRPLEX was awarded 1.Million for joint water project. Measure W. All cities working together in a shared community interest. City of Pomona will not loose any social services as stated by Mayor of Pomona nor influence in SGV by having two Supervisors. Both Supervisors serve the SGV one disenfranchised and one of higher income in near by cities like the folks in Ganesha Hills N Pomona</p> <p>T</p>	12/10/2021	<a href="#">View attachment</a>

5.a.	John Mendoza	Oppose	Document of community of Interest environmental concern N Pomona residents above 10 freeway regarding FAIRPLEX addressed to Mayor Sandoval. North Pomona request to explore options to integrate N. Pomona above 10 freeway who have shared community Interest with San Dimas, La Vern and Claremont. An opportunity for a part of Pomona to be included in Supervisor District 5 which not as impacted by social inequality and disadvantage cities.	12/11/2021	<a href="#">View attachment</a>

5.a.	John T Muhammad	Other	I am opposed to piecemeal changes to District 2, i.e., moving the beach city communities and the wetlands out of District 2.	12/11/2021	n/a
5.a.	John T Muhammad	Other	Leave District 2 intact, including the beach cities.	12/11/2021	n/a
5.a.	John T Muhammad	Other	Maintain/preserve the historic African American representation in District 2.	12/11/2021	n/a
5.a.	Judith St John	Favor	Please keep the residential areas around Fairplex together in one supervisor district. Please include a portion of La Verne immediately north of Arrow Highway together with the portion of Pomona surrounding Fairplex. I favor moving that Fairplex neighborhood of community of interest to District 5. The City of Pomona will not be negatively impacted by this, because Fairplex will remain within the City limits. The difference is that a different supervisor will be able to look at the negative impacts with fresh eyes and will be able to represent all the residents who are immediately impacted. The La Verne residents who live north of Arrow Highway are impacted by traffic that is generated by Fairplex activities. Fairplex is an island surrounded by residential both in La Verne and Pomona. Traffic going to and from Fairplex impacts the La Verne residents north of Arrow Highway especially between Fairplex Drive and White. I suggest including the portion of La Verne north up to Second Street.	12/11/2021	n/a
5.a.	Kenneth M Sarno	Oppose	I am 74 years of age. I grew up near the corner of Wilshire & Fairfax until I was 18 years old. I have lived at my present address in Hermosa Beach since 1978. The culture of the beach cities is completely different from the culture of West-Central	12/11/2021	n/a

<b>5.b.</b>	John Mendoza	Other	<p>Pomona FAIRPLEX is a regional economic engine located in Pomona but City of La Vern also included at northern part. That is where L.County established the COVID-19 vaccination site. Redistricting the FAIRPLEX into Supervisors 5 would create a bonded community of interest in the area which needs improvement . Residents in N. Pomona above 10 freeway share a community interest with FAIRPLEX. A mitigation Zone now exist which was organized by CEO Miguel Santana FAIRPLEX that includes a area around FAIRPLEX impacted by FAIRPLEX events. A revenue scheme of giving a percentage of revenue generated by FAIRPLEX is deposited into Pomona account. Problem now no accountability of what happen to funds if any even after the FAIRPLEX Race Cars events on National Television and the illegal car sales at FAIRPLEX by CARVANA brought in and out 10,000 used cars in 3 months. The concerned neighbors of FAIRPLEX are responsible for coming together as a community to help establish the Mitigation Zone but La Vern and San Dimas we're not in the plan that a new Supervisor in 5 may be able to mitigate. <b>OPTION F-3</b>	Arlene Pinzler	Favor	<p>"I support the current map F-3 -- provided the following changes are made to strengthen the degree to which communities that are most closely related to each other by geography, common interests and a history of mutual cooperation are kept together:</p> <p>My proposed tweak to the current version of F-3 is that the CRC move the coastal cities of Redondo Beach, Hermosa Beach and Manhattan Beach back into District 4, where they are now. These beach cities have far more in common with the cities of Torrance, the Palos Verdes Peninsula and Long Beach than with any part of downtown Los Angeles. In exchange, areas closer to downtown Los Angeles that currently appear in the F-3 map as part of District 4 would be moved into District 2, where they will have much more in common with the other communities that the F-3 option currently has grouped together there. This simple change would greatly improve the overall redistricting map by furthering the goal of combining communities of common interest while minimizing the changes made to the current District lines the CRC has drawn.</p> <p>Thank you for your consideration.</p> <p>Arlene Pinzler</p>	12/11/2021	n/a

<b>OPTION F-3</b>	Faraz Aqil	Favor	<p>Map F-3 is a very good map and is about 99% of the way there. But for that last percent, I wanted to recommend some tweaks to the map based on testimonies/comments and population deviation consideration.</p> <p>Now that Commissioners have narrowed down to 1 map, Commissioners must work to get each District as close to 0% Population Deviation as possible. For reference, our current Supervisor Districts only have at most + or – 31,214 population difference for all 5 Districts.</p> <p>Based on testimonies I’ve read, heard, and from my personal opinions, here are my best recommendations on where you should tweak/move cities into these Districts:</p> <p>~District 1:          *Koreatown (LA)          *Little Bangladesh (LA)</p>	12/10/2021	n/a

		<p>*Whilshire Center (LA). This will keep the Asian communities together and compact in District 1 (which already includes Thai Town, China Town, Little Tokyo, and Historic Filipinotown).</p> <p>~District 2:          *Torrance. Please keep Torrance with the other South Bay Cities (rather than the Gateway Cities) for better representation.          *Marina Del Ray (unincorporated)          *Marina Peninsula (LA)          *Playa Del Ray (LA). This is to keep in mind the area’s environmental concerns.</p> <p>~District 3:          *West Hills (LA)          *Lake Manor (unincorporated). To keep as much as the San Fernando Valley together.</p> <p>~District 4:          *Commerce          *La Habra Heights (unincorporated).</p> <p>~District 5:          *Covina          *Sun Valley (LA).</p> <p>If Commissioners were to adopt all these changes together, the population deviation will be no greater than + or – 14,260 population (which is no greater than + or – 0.71% deviation).</p> <p>PS: If you wish to visually see all the above changes to map F-3, I created a map named “Reaching Near 0 Percent Population Deviation &amp; Small Tweaks”.</p> <p>Thank you Commissioners for all of your hard work.</p>

<b>OPTION F-3</b>	Manjusha Kulkarni	Other	<p>Dear Commissioners,</p> <p>Thank you for your efforts in this historic redrawing of Los Angeles County’s supervisorial district lines. I write to ask that you support modified Map F-3. Specifically, I recommend that the AAPI communities such as Thai Town, Little Tokyo and Koreatown be kept whole. Current lines cut into the communities, ignoring borders. We request that the commission review and re-draw the lines to keep the communities in one district.</p> <p>Much appreciated, Manjusha P.
